**The Importance of Food**

At Bon Appétit Management Company, we recognize the great power and importance of food. Dining rooms are gathering places. Breaking bread together helps to create a sense of community and comfort. We recognize the important role we fill and take great care to honor our position on a corporate or school campus. We show this care in our operations every day by...

- Cooking food from scratch using fresh seasonal ingredients
- Taking our role in the community seriously and making socially responsible purchasing decisions
- Serving great tasting, authentic and nutritious food that exceeds the expectations of our guests including vegetarian, vegan, and international diners
- Providing opportunities for all our employees, including student workers, to develop their potential and abilities
- Recognizing that every client we serve is unique and creating tailored food programs for each one
- Serving a wide variety of menu items at each meal, each day keeping things fresh, fun, and interesting – you won’t find a cycle menu at a Bon Appétit account
- Viewing our operations as onsite restaurants competing with local off campus restaurants - never resting on the idea of a "captive audience"

Being a leader in our industry by working to create a more sustainable food system

We believe that if we live by these tenets, Bon Appétit will indeed be a very select company and we will reach our dream. We have the conviction that today can be a little better and a little more fulfilling than yesterday. We have the will to achieve excellence through a wealth of dedicated management talent. And... we have the courage to look closely at ourselves, so that we are always striving to improve.
