The Campus Safety, Parking & Transportation Update is intended to provide information about upcoming programs, activities, safety and emergency preparedness information to our campus community. Program dates and duration may vary, so be sure to follow us at http://sites.laverne.edu/campus-safety/.

Campus Safety

**Associate Director Jeff Clark** was presented the California College and University Police Chiefs Association’s “Award of Merit of 2014” on April 10th during its annual conference. The honor, the 2nd highest presented by CCUPCA, is described as “…The Award of Merit is presented to a person affiliated with educational law enforcement who by their act or acts, tangibly and conspicuously further the cause of educational law enforcement by outstanding or superior conduct.”

Jeff was specifically recognized for his leadership and guidance in developing advance training, programming and security strategies here at our campus which in turn have serve as the foundation for new, comprehensive reconstructions of university security services departments by a number of private universities in the Southern California Region.

On March 24, the University of La Verne was ranked among the “2014 Safest Colleges in America” list, as announced by the student-developed and focused website, University Primetime (.com). This ranking, which placed our University #28 in the country, but also #1 in California as reported by students, and demonstrates a continuing, significant step forward in the safety and security programming and efforts that the members of the Campus Safety Department and their partners have dedicated themselves to.

Parking & Transportation Updates

**On March 26, Lisa Grater** was named a finalist for the “Excellence in Fleet Leadership” Award, announced by the National Fleet Managers Association (http://www.nafa.org). Lisa was selected as one of three (3) finalists out of 120 nominations that came from across the country. Her selection was based upon her oversight and superior leadership in the University’s family of fleet and transportation services; management of the University’s transportation resources to support academic, athletic, community and special event programming; and the advanced levels of managing the University’s ongoing commitment to supporting regional and statewide air quality efforts.
On March 28th and 9:04 PM, the Inland Southern California area experienced a magnitude 5.3 earthquake. This event provided an excellent and timely reminder of our personal responsibility to prepare for such an event that could impact our home or while at campus.

Already planned for later this month (April), the Campus Safety Department and the Office of Emergency Preparedness will conduct a brief evacuation and training exercise, as part of our ongoing programming and commitment to being prepared and equipped for emergencies and local or regional disasters. Be sure your Emergency Notification System (E2Campus/ULV Alert) is up to date, as well.

For more information on how to become better prepared, or check your notification information on E2Campus, visit the University’s Office of Emergency Preparedness at http://sites.laverne.edu/campus-safety/emergency-preparedness/.
